Common Stock	3,596,575,505

11. Indicate the item numbers reported herein: .....**Item No. 9** .....

FGEN LNG Corporation ("FGEN LNG"), a wholly-owned subsidiary of First Gen Corporation, announced today that it has requested the Department of Energy to extend the validity of its Permit to Construct, Expand, Rehabilitate and Modify ("PCERM") for its Interim Offshore LNG Terminal ("Project") from September 23, 2022 to March 23, 2023, in accordance with the provisions of the Philippine Downstream Natural Gas Regulations ("PDNGR").

The request is due to projected delay in the completion of the Project caused by events and circumstances not within the reasonable control of FGEN LNG.

Separately, FGEN LNG and its Floating Storage Regasification Unit ("FSRU") provider, BW FSRU IV Pte Ltd ("BW"), have agreed to move delivery of the FSRU *BW Paris* from Q1 2023 to the end of Q2 or early Q3 2023.

FGEN LNG is developing the Project to accelerate its ability to introduce LNG to the Philippines, to serve the natural gas requirements of existing and future gas-fired power plants of third parties and FGEN LNG affiliates. FGEN LNG believes the Project will play a critical role in ensuring the energy security of the Luzon Grid and the Philippines, particularly as the indigenous Malampaya natural gas resource is expected to decline in the next few years.

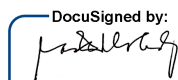

**SIGNATURE**

Pursuant to the requirements of the Securities Regulation Code, the issuer has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
